About SECUINFRA

Company Details:

Provided by Vendor ⓘ | Updated 3rd June 2024

Company Type: Private

Head Office Location: Berlin, GERMANY

Year Founded: 2010

No. of Employees: 51-200

Annual Revenue: <50M USD

Website: <https://www.secuinfra.com>

Company Description:

SECUINFRA has been supporting companies in detecting, analyzing and defending against cyber attacks since 2010. Our services, including Managed Detection and Response (MDR) and Incident Response (IR), ensure that cyberattacks are detected and defended at an early stage, preventing major damage. We use technologies and products in the areas of Security Information & Event Management (SIEM), Endpoint Detection & Response (EDR), Network Detection & Response (NDR) and Security Orchestration, Automation & Response (SOAR) to provide our services.

Maximized Decision-making Freedom: Highlighting MDR Service Excellence

For me, this MDR service is exactly what I was looking for for our company: a rapidly deployable service that analyzes alerts from our Defender XDR environment with speed and high quality. What has positively surprised me is the level of decision-making freedom I have as a customer, which, ...

Likes and dislikes about SECUINFRA

● LIKES

The modularity and adaptability of this MDR service are particularly noteworthy. Given our numerous specific requirements, we rely on a service which can be adjusted on our needs, and we certainly receive that here. After the onboarding phase, we were assigned a dedicated ...

● DISLIKES

I would have appreciated more guidance and consultation in the beginning of the service. The initial setup lacked a bit of advice and recommendations on how to design and implement the alert handling process and other processes. I believe it would be better to assign the dedicated Cyber ...

Adaptable MDR Service Meets Complex Infrastructure Challenges

Reviewed on Oct 4, 2024

Reviewer Function: IT Security and Risk Management Company Size: 500M - 1B USD Industry: Banking Industry

I am really satisfied with the MDR service we receive from SECUINFRA for our challenging and complex IT infrastructure. We are a service provider in the financial sector, and as such, are heavily regulated by supervisory authorities. Consequently, we had been searching for a technically and procedurally adaptable MDR service for a long time, and we have now found it.

A major upgrade to our OT Security

Reviewed on Sep 3, 2024

Reviewer Function: IT Security and Risk Management Company Size: 250M - 500M USD Industry: Energy and Utilities Industry

Due to regulatory requirements, we were looking for an MDR service for our critical OT environment that is both flexible and quick to implement. This MDR service has provided exactly that for us. In addition to meeting the regulatory requirements, it has also given us significantly better visibility into our infrastructure and increased security.

A service that brings us flexibility and technical expertise for our security operations

Reviewed on Aug 26, 2024

Reviewer Function: IT Security and Risk Management Company Size: 3B - 10B USD Industry: Insurance (except health) Industry

The service offers us great flexibility and analysts with a high level of technical expertise, which helps us make our environment significantly more secure. We were looking for a MDR service that would complement our internal capacities effectively and provide a high degree of adaptability to our interfaces and processes. This is exactly what we found with the MDR service from SECUINFRA.

Why we decided to implement an external SOC with SECUINFRA MDR

Reviewed on Jun 26, 2024

Reviewer Function: IT Company Size: <50M USD Industry: Insurance (except health) Industry

The SecuInfra MDR Service has quickly enabled us to implement an external SOC, as we do not have the inter capacity and resources to ensure such monitoring. The service is provided 24/7, offering us protection and response measures even during off-hours when we are not working. We are satisfied with this service
